# 30 YEARS OF WORLD'S FIRST TECHNOLOGIES THAT MAKE A REAL-LIFE DIFFERENCE

Car companies innovate to make a better car. At INFINITI, we innovate to make a better driver. With every INFINITI world's first technology, we are not only making history, we are empowering the person behind the wheel to see farther and respond faster.

Test drive the range of INFINITI vehicles and experience for yourself how thinking human-first makes a real-life difference.

1989

## LAUNCH

The INFINITI brand is launched with the promise to create a new performance luxury brand changing the relationship between car and driver.

1990

## FULL-ACTIVE SUSPENSION

Our first car already featured a world's first technology. The Q45 offered a more controlled ride by counteracting body motion in bumps, curves, acceleration and braking.

2001

## REARVIEW MONITOR

When in reverse, an in-dash monitor displays a live picture of what's directly behind the vehicle. This feature set a new benchmark in the industry and is now standard on all new INFINITI vehicles sold in Canada<sup>1</sup>.

2004

## LANE DEPARTURE WARNING

Warns you if you begin to stray from your lane, helping address NHTSA findings that showed a significant number of all traffic fatalities were due to lane departure<sup>2</sup>.

2007

## AROUND VIEW<sup>®</sup> MONITOR

Provides a 360° virtual composite view of what surrounds the vehicle and displays it on the in-dash monitor<sup>3,4</sup>.

2010

## HYDRAULIC BODY MOTION CONTROL

Monitors force and distributes variable pressure to either the outer or inner suspension, which minimizes body lean and provides a smoother ride at all speeds.

## BACKUP COLLISION INTERVENTION

Can detect cross-traffic and stationary objects behind the car and, if necessary, engages the brakes to help avoid a collision<sup>5</sup>.

## DIRECT ADAPTIVE STEERING<sup>®</sup>

Transmits steering inputs electronically instead of mechanically, providing a quicker and more precise response.

## ACTIVE LANE CONTROL

Can make steering corrections to help you stay straight in your lane in crosswinds and on uneven roads<sup>6</sup>.

## PREDICTIVE FORWARD COLLISION WARNING

Can warn of risks that lie beyond the driver's field of view by monitoring up to two vehicles directly ahead<sup>7</sup>.

## VC-TURBO™ ENGINE

Provides power when you need it, efficiency when you don't. Moves seamlessly between compression ratios, transforming from 8:1 for high performance to 14:1 for high efficiency.

## 30 YEARS FORWARD

INFINITI looks to the future and celebrates 30 years of innovation.
